

## 地质学报一九七四年总目录

### 第 一 期

- 用唯物辩证法打开地下宝库 ..... 姜 栋 ( 1 )
- 中国奥陶纪珊瑚化石的地层分布与动物地理分区的初步看法 ..... 亦 农 ( 5 )
- 北石城新华夏系断裂带的初步研究 ..... 王嘉荫、玄孝千 ( 23 )
- 对中国大地构造若干特点的新认识 ..... 黄汲清、任纪舜、姜春发、张之孟、张正坤 ( 36 )
- 一个铁矿床的围岩蚀变和成因探讨 ..... 张荣华执笔 ( 53 )
- 易解石-钇易解石族的新变种——钛钇矿 ..... 齐玲仪 ( 91 )
- 影响矿化岩石和矿石极化率(  $\eta$  )值的因素及其作用规律 ..... 张赛珍、王式铭执笔 ( 95 )

### 第 二 期

- 辽宁抚顺煤田地层及其生物群的初步研究(附: 昆虫、叶肢介化石属种描述) .....  
..... 洪友崇、阳自强、王士涛、王思恩、李友桂、孙孟蓉、孙湘君、杜乃秋 ( 113 )
- 甘肃北山区下石炭统划分及其对比 ..... 金松桥 ( 159 )
- 我国中部某盆地早第三纪半咸水有孔虫化石群的发现及其意义 ..... 汪品先、林景星 ( 175 )
- 某钨锡矿床构造及其对成矿控制的探讨 ..... 张玉书整理 ( 184 )
- 矿物的高频介电分离 ..... 地质科学研究院地质矿产研究所 ( 193 )

### 科 研 简 讯

- 我国某地区含铂岩体中铂核元素的及伴生的新矿物初步研究 .....  
..... 於祖相、林树人、赵 宝、方青松、黄其顺 ( 202 )
- 某地下寒武统黑色岩系中钼矿物质成分及其赋存状态的初步研究 ..... 王璧珍、喻启安、张桂兰 ( 219 )

# ACTA GEOLOGICA SINICA 1974

## CONTENTS

### No. 1

|                                                                                                                              |                                                                                          |
|------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|
| Apply the Law of Materialist Dialectics to Unearth the Underground Treasure-House.....                                       | Chiang Tung ( 4 )                                                                        |
| A Preliminary Study on the Stratigraphical Distribution and Zoogeographical Province of the Ordovician Corals of China ..... | Yi Nun'g ( 22 )                                                                          |
| Preliminary Observations on a Neocathaysian Fault Bei-Shi-Cheng .....                                                        | Wang Chia-yin and Hsuan Hsiao-chien ( 35 )                                               |
| Some New Observations on the Geotectonic Characteristics of China .....                                                      | Huang Chi-ching, Jen Chi-shun, Jiang Chun-fa, Chang Chih-meng and Chang Cheng-kun ( 52 ) |
| On the Zoning of Country Rock Alteration and Its Genesis of An Iron Deposit.....                                             | Chang Jung-hua ( 86 )                                                                    |
| Taiyite, a New Variety of Aeschynite-Priorite Group .....                                                                    | Chi Ling-yi ( 94 )                                                                       |
| On the Factors Affecting the Polarizability $\eta$ of the Mineralized Rocks and Related Ores .....                           | Chang Sai-chen and Wang Shi-ming ( 112 )                                                 |

### No. 2

|                                                                                                                  |                                                                                                                                 |
|------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Stratigraphy and Palaeontology of Fushun Coal-field, Liaoning Province .....                                     | Hong You-chong, Yang Tzu-chiang, Wang Shih-tao, Wang Szu-en, Li Yu-kuei, Sun Meng-rung, Sun Hsiang-chun and Tu Nai-chiu ( 145 ) |
| Subdivision and Correlation of the Lower Carboniferous of the Beishan Region, Kansu .....                        | Chin Sung-chiao ( 174 )                                                                                                         |
| Discovery of Paleogene Brackish-water Foraminifers in a Certain Basin, Central China, and Its Significance ..... | Wang Pin-hsien and Lin Ching-hsing ( 183 )                                                                                      |
| Geological Structure of a Certain Tin and Tungsten Deposit and Its Control on Metallogenesis .....               | Chang Yu-shu ( 192 )                                                                                                            |
| Separation of Mineral Grains by High Frequency Dielectric Method .....                                           | Institute of Geology and Mineral Resources, Academy of Geological Science ( 201 )                                               |

### *Scientific Research Briefs*

|                                                                                                                                                         |                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| A Preliminary Study of Some New Minerals of the Platinum-group and Another Associated New One in Platinum-bearing Intrusions in a Region of China ..... | Yu Tsu-hsiang, Lin Shu-jen, Chao Pao, Fang Ching-sung and Huang Chi-shun ( 218 ) |
| A Preliminary Study of the Composition of Vanadium Minerals and its Mode of Occurrence in the Lower Cambrian Black Shale in a Region of China .....     | Wang Pi-chen, Yu Chi-an and Chang Kuei-lan ( 229 )                               |
