

AUTHOR INDEX

- Chang Yu-chi (Y. C. Cheng): Problems on the Genesis of the High-grade Ore in the pre-Sinian (pre-Cambrian) Banded Iron Ore Deposits of the Anshan-type of Liaoning and Shantung Provinces(177)
- Hsieh Hsueh-chin: Geochemical Field Method for the Determination of Traces of Molybdenum in Soils(360)
- Hsu Ke-chin: Discovery of Pyrometasomatic Scheelite Deposits near a Wolframite-producing District in Southern China, and a Discussion about the Origin of These Two Classes of Deposits.....(149)
- Kao Chen-si (Pan Kiang): On the Characteristic Features of the Fluorite Deposits, Wuyi, Chekiang(107)
- Kiang, C. C.: The Sinian Stratigraphy in the Southern Part of Northeast China.....(55)
- Kuo Tsung-shan: The Skarn Type of Copper Ore Deposits of the Lower Yangtze, China (10)
- Lee J. S.: The Lotus-form Structure(361)
- Lee Yü-ying (Wang Li-shun, Ho Yüen-chiao): Pre-Cambrian Stratigraphy of South-western Inner Mongolia.....(257)
- Li Hung-yeh: On the Correlation of the Lower Sinian Series of Strata in Northeastern China.....(295)
- Liu Chih-yüan: The pre-Cambrian Metamorphosed Sedimentary Type of Phosphorite of China.....(349)
- Liu K. S. (Lee H. C.): On the Formation and Characteristics of Mineralization of the Koehiu Tin Deposits, Yunnan.....(397)
- Ma Hsing-yuan: On the pre-Cambrian Stratigraphy of the Sungshan, Area, Honan, and the Problems of Its Correlation.....(28)
- Meng Hsien-min: The Areal Distribution of the Metallic Mineral Deposits in South China as a Manifestation of the Characteristics of the Dispersion of the Useful Elements in the Various Structural Forms of the Earth's Crust.....(94)
- Mo Chu-sun: A Preliminary Classification of Tungsten-ore Industrial Types(184)
- P'an Kiang: The Correlation and Age of the Wutung Series of the Lower Yangtze Valley, and with a Special Discussion on the First Discovery of Devonian *Asterolepis* in China(472)
- Patrut Dr. I.: Achievements of Rumanian Geologists in the Oil Industry.....(214)
- Schüller A.: The "Copper Shale" of Mansfield, Germany.....(430)
- Shao K. C. (Young S. C., Liang K. Y.): Sausurite-Gabbro of Tungan District, W. Szechuan Province.....(450)
- Sun Y. C.: On the Base of Cambrian System.....(232)
- Sung Shu-ho: Some Additional Notes on the Geology of the Chilianshan Pyritic Copper Ore Deposits.....(78)

Tung Ming-shan: Some Petrographical Study on the Coals from the Taiyuan and Shansi Series along the Middle Fen Valley, Shansi, with Reference to the Determination of the Ranks of the Various Coals Considered	(116)
Tung Tze-yü (Chao Kwei-san): Geology of the Ultra-basic Rocks and Chromite Deposits of Silinkolôman, Inner Mongolia.....	(274)
Wang Ch'ao-chuen, (Chao Yeh Wang Chuen-pi Chao Chuen-chao): On the Uppex Permian Coal Series of Southwestern China.....	(313)
Wang Yin-jen: Comments on "Graphical Investigation of Coal Classification Methods. Coal Composition and Properties" and "The New Graphical Classification Methods for Chinese" Coals".....	(228)
Ван Чжи (Вэнь Гуан): Медное Месторождение порфировых руд чжунтяошаньского типа...	(413)
Го Вэнь-куй: Медное Месторождение Тунганьшань в Китае.....	(323)
Лебединский В. И.: Об округло-глыбовой отдельности в гранитах Лаюаньского массива (КНР)	(83)
Тян Кэ-мень: К вопросу о карстовом происхождении россыпях месторождений олова фухочжон в провинции Гуанси	(422)
Хуан-И (Пы Жун-фу, Жен Гуан-чаэн, Лю Ю-син, Чжоу Вэ-пин): О Железорудном Месторождении Даевского Типа.....	(201)
Хун Ю-Цун: О находке фауны Грантолитов в Карадокском (Caradocian) Ярусе Верхнего ордовика в районе Трех ущелий и ее значение для стратиграфий.....	(298)
Чжан Цзун-ху: Инженерно-геологическое Исследование Илов в Районах Гидротехнических Строительств на Равнине Хэбей.....	(208)
