| ..... Zhu Hong, Yang Guanxiu and Sheng Axing                                                                                                                                   | (128) |
| Oxygen isotope exchange kinetics between coexisting minerals and water in the Aral granite pluton, Altay mountains, Northern Xinjiang                                          |       |
| ..... Liu Wei, He Beichu and Chen Zhensheng                                                                                                                                    | (141) |
| Volcanic event deposits and stratigraphic correlation of the late Carboniferous —early Permian in Shandong and adjacent regions                                                |       |
| ..... Zhong Rong, Sun Shanping and Fu Zeming                                                                                                                                   | (152) |
| Sedimentary environment and reservoir characters of the Carboniferous Donghe sandstone in the Tarim basin                                                                      |       |
| ..... Gu Jiayu                                                                                                                                                                 | (161) |
| Interactions of copper, evaporite, and organic matter and genesis of sandstone-hosted copper deposits in the Chuxiong basin, Yunnan province                                   |       |
| ..... Zhuang Hanping, Ran chongying, He Mingqin and Lu Jialan                                                                                                                  | (171) |
| Subsolidus phase relations in the system MgO-SiO <sub>2</sub> -Cr <sub>2</sub> O <sub>3</sub> and thermodynamic properties of related Cr <sup>2+</sup> -containing end-members |       |
| ..... Li Jianping, Hugh St C O'Neill and Fridrich Seifert                                                                                                                      | (185) |
| Silurian-Devonian and Jurassic thermal events in the Ordos basin, China: evidence from K-Ar dating on illites                                                                  |       |
| ..... Zhao Mengwei, Hans Ahrendt, Klaus Wemmer and Hans-Jürgen Behr                                                                                                            | (194) |

### No. 3

- Tectonophysical process at depth for the uplift of the northern part of the Qinghai-Tibet plateau; illustrated by the geological and geophysical comprehensive profile from Golmud to the Tanggula mountains, Qinghai province, China  
..... Xu Zhiqin, Jiang Mei and Yang Jingsui(206)
- The origin of the Early Proterozoic Kuandian complex; evidence from geochemistry  
..... Sun Min, Zhang Lifei and Wu Jiahong(222)
- The discovery of phlogopite exsolution lamellae in garnets of eclogite enclaves, Liaoning province ..... Zhou Xiuzhong(231)
- Pelagic manganese nodules—A new type of oncolite  
..... Bian Lizeng, Lin Chengyi, Zhang Fusheng, Du De'an, Chen Jianlin and Shen Huadi(236)
- The main mineralization mechanism of magma sulfide deposits in China ..... Tang Zhongli(242)
- Supergene geochemistry of gold and oxifation zone of the Sain Us gold deposit of the Inner Mongolia arid climatic region  
..... Ma Mintao and Guan Guangyue(252)
- Mineralization during collisional orogenesis and its control of the distribution of gold deposits in Junggar mountains, Xinjiang, China ..... Chen Yanjing(261)
- The background features and formation of chemical elements of groundwater in the area of the middle and lower reaches of the Yangtze River ..... Zeng Zhaohua(269)
- Sequence stratigraphy of the Permian—Triassic boundary section of Changxing, Zhejiang  
..... Zhang Kexin, Tong Jinnan, Yin Hongfu and Wu Shunbao(281)
- Lake sequence stratigraphy of the Shahejie Formation in the Zhanhua depression, Shandong province  
..... Wang Liuqi, Jiang Zaixing, Cao Yingchang, Han Wentao and Wu Jing(290)

### No. 4

- Shear wave anisotropy of the upper mantle beneath the Timgri of Tibet to Golmud of Qinghai  
..... Shi Danian, Dong Yingjun, Jiang Mei, Zhao Hong, Georges Poupinet, Alfred Hirn and Alexandre Nercissian(297)
- A plate-tectonic model for the evolution of the daqingshan granulite belt in Inner Mongolia  
..... Gan Shengfei and Qian Xianglin(308)
- Malanite—a new cupric platinum ( $Pt^{3+}$ ) and iridium ( $Ir^{3+}$ ) sulfide ..... Yu Zuxiang(314)
- Tectonites in the shear zone array of the Tongbai-Dabie orogenic belt ..... Zhong Zengqiu, Suo Shutian and Xu Qidong(323)
- The background of regional lead isotopic compositions and its application in the lower and middle reaches of the Yangtze River and neighbouring areas ..... Ma Zhendong and Shan Guangxiang(334)
- Metallogenic epochs of the Jiapigou gold deposit, Jilin  
..... Li Junjian, Shan Baofeng, Mao Debao, Li Shuangbao, Zhou Huifang and Cheng Yuming(341)
- Characteristics of cycle-sequence, carbon isotope features and glacio-eustasy of the *tritrites* zone in southern Guizhou  
..... Li Rufeng, Liu Benpei and Zhao Chenglin(350)
- A Model of quantitative estimate of marine biogeographic provinciality—a case study of the Permian marine biogeographic provincialism ..... Shi Guangrong (G. R. Shi)(360)
- On the carboniferous sequence stratigraphy in the Tazhong area, Xinjiang—a model of the sequence stratigraphy framework of intracratonic depressional basins ..... Guo Jianhua, Zeng Yunfu, Zhai Yonghong and Gao Zhenzhong(373)
- Palynomorphs from metamorphic rocks in southern Anhui and their geological significance  
..... Chen Guanbao, Tao Zheng, Shi Yonghong and Xu Shutong(382)
